Description

CONSULTING SERVICES

The JSC Nikola Tesla Airport team is made up of skilled experts in different fields such as corporate management, planning, airport operating service and realization, air carrying, civil engineering, as well as financial and legal consulting.

One of our goals is to offer our teams experience in preparation and realization of big infrastructural projects to third parties. All of the acquired experience in processes of privatization, restructuring systems and the newest project with the public-private partnership reaching a Concession agreement, we wish to use as an additional income for ANTb.

At the same time, our goal is to apply our managers' and team leader's experience to workshops and educational hubs for third parties.
